Cook Partisan Index

PVI is calculated by comparing a congressional district's average Democratic or Republican Party share of the two-party presidential vote in the past two presidential elections to the national average share for those elections. For example, the national average for 2004 and 2008 was 51.2% Democratic to 48.8% Republican.

In Alaska's at-large congressional district, the Republican candidate won 63% and 61% of the two-party share in the 2004 and 2008 presidential elections, respectively. Comparing the average of these two district results (62%) against the average national share (48.8%), this district voted 13.2 percentage points more Republican than the country as a whole, or R+13.

Massachusetts ROE Act

The Roe Act Coalition is writing postcards to generate calls to State legislators, including Kate Hogan

- * Opponents are flooding the phone lines with inflammatory language and insults.
- * Cosponsors need calls for support – they are tallying them

Postcard packages!

10 postcards, a sample, 10 labels, 10 stamps, 10 addresses

Please donate \$4, this project is self funded

ABORTION IS HEALTH CARE.

How An Act to Remove Obstacles and Expand Abortion Access (ROE Act) will build healthier, more equitable communities.

In 1973, the Supreme Court guaranteed the right to safe, legal abortion. Since then, politicians across the country have passed countless laws to shame, coerce, and punish people seeking abortion care. Now, the Trump-Pence administration has launched a full scale attack to infringe on our freedoms and take away our rights, including access to abortion.

Even in Massachusetts, people face entrenched, unjust barriers to safe, legal abortion.

We need the ROE Act to break down these barriers to health care in Massachusetts.

The ROE Act will improve access to affordable abortion by removing unnecessary, burdensome laws that delay and deny care. This comprehensive legislation will do the following:

Protect the health, safety, and privacy of young people.

The ROE Act eliminates the onerous requirement that forces teens to obtain permission from a parent or judge to access abortion. This process causes teens to delay care or travel outside of the state, and is opposed by the American Medical Association and the American Academy of Pediatrics.

"When I was 16, I had to go before a judge to defend why I wasn't ready to be a parent. It felt like a huge violation of privacy.
Jasmin,
Dorchester

Ensure medical decisions remain between a patient and their doctor.

The current law puts people and their families in the unimaginable situation of needing to end a pregnancy for serious medical reasons, but unable to do so, forcing people to travel across the country to access an abortion later in their pregnancy. The ROE Act expands access to abortion after 24 weeks of pregnancy in cases of fatal fetal anomalies.

Lead the way in ensuring equitable access to abortion.

Everyone deserves the opportunity to lead a healthy life, no matter who they are or where they come from. That's why the ROE Act establishes safety net coverage for abortion care which already exists for all other pregnancy-related care for people excluded from MassHealth.

Bring our laws into the 21st century and reduce stigma around abortion.

Did you know there's an unenforced law requiring a 24-hour waiting period for abortion in Massachusetts?

The ROE Act abolishes medically unnecessary restrictions, modernizes inflammatory and inaccurate legal definitions relative to pregnancy and abortion, and eliminates unwarranted intrusions and criminal penalties for doctors that provide abortion care. The bill also codifies reproductive freedom into state law.
